FRITZ-FELSENSTEIN-HAUS
FÜR KÖRPERBEHINDERTE

Implementation of the project

In Germany, the Erasmus + project "We are gentle" developed house rules for children and young people. The whole house is kept informed of this. After a basic discussion, there were 3 steps.

1. Level

A poster with Metacom symbols is developed and presented. Afterwards it should be printed. This is the content:

Our values in the FFH (5 overriding values were selected)

We are a community.

We are respectful.

We take responsibility.

We communicate and listen.

We feel comfortable.

These values are shown with the Metacom symbols. Various examples are developed and then voted on.

2nd level

A catalog with rules is drawn up and written down. For this purpose, the student co-administration (SMV) is taken on board from the beginning. The teachers draw up a final set of rules.

3rd level

A student contract is developed if these behaviors are not followed.

These levels were communicated to all countries via online channels and a strategy is expected of all countries as to how and what will be developed from the project. This can be an agreement on the gentle principles in all possible variants. We are eagerly awaiting what will come.
